Training Calendar

Registration conditions for 2012

New 10% DISCOUNT FOR ALL

You can save 10% off training expenses (excluding examination fees) on all regional training courses and the Challenge Test.

You will save 10% off training expenses (excluding examination fees) on all regional training courses and the Challenge Test if you register at least two months before the start of the month in which training will take place. Should your course take place, for example, on 10/10/12, registration must have been completed no later than 01/08/12. After this date the course costs shown in our training calendar for 2012 will apply.

Other discounts

- PIEK grants a **discount of 10%** on all training courses offered at a regional level to **members of IPC**. Please quote your membership number to claim the discount.
- Discounts are also offered to companies wishing to train two or more participants: 10% for 2 to 3 participants and 15% for 4 to 5 participants.

Have you recently profited from one of PIEK's recertification courses? There are additional benefits available to you!

If your company is organising a recertification course or you are planning to take part in a regional recertification course in the near future, PIEK now offers a number of new options that will be available during the course (both theoretical and practical) you have chosen:

- You can now bring special PCBs, 'problem PCBs', and PCBs requiring assembly or repair to your recertification training sessions. Together with our trainer, you can examine the PCBs in question and develop a course of action during the practical section.
- PCBs and other components that cause difficulties for your employees can also be brought along to the practical training sessions. Let our trainers work with you and, if possible, help you find the right solution.

PIEK does have a few simple requests...

- Please send us an e-mail well before the start of the course describing the problems you are experiencing. Please enclose photos of the units causing the trouble. This allows our trainer to prepare properly and it also means the trainer can bring along the right equipment if needed.
- Each participant may bring a maximum of two products.
- Please make sure your training facilities are ESD safe and that your employees and trainer meet all the ESD guidelines. Please regard any products you decide to bring along to a regional training session as write-offs.

Course confirmation

You will receive course confirmation or proof of participation for the Challenge Test and directions as soon as we receive your registration form.

Payment

Payment is due immediately upon receipt of the invoice, without deductions.

Cancellation

Registration can only be cancelled in writing two weeks or more (by postmark) before the start of the training course or Challenge Test, in which case an administration fee of 150.00€ will be charged. In all other cases the full invoice amount is payable.

PIEK reserves the right to cancel the course before the start of the training session even after confirmation of registration has been issued if there are too few participants, or for any other valid reason.

In this case any fees received are refunded.

Prices

All prices in this offer are net prices i.e.

- exclusive of any applicable value added tax and excluding individual travel and accommodation expenses
- exclusive of any possible mailing expenses (only applicable if you wish to receive the training documentation in advance for course preparation, or would like to order the training documentation for reference). This option is available only for certain courses.

These registration conditions and the registration form are an integral part of the registration process.

Registration conditions for 2012

Rights and validity of discounts

Your right to claim any discounts and special prices offered by PIEK (participation in Piek-Activities, group discounts for multiple participants, or for combined training courses), expires immediately if the payment of the total invoice amount for the courses booked has not been transferred to one of our accounts in full by the start of the course in question.

PIEK discounts can be applied only once per training order and apply only for the actual course and not for the training documentation.

Discounts cannot be combined, and PIEK will automatically apply the most favourable type of discount.

Disclaimer of liability
